DEPLOYMENT POLE For Hand Held Camera

Model HH-DEP1

A Deployment Pole with adjustable fitting for use with the Submertec Hand Held Camera in Marine Aquariums and zoos.

The lightweight pole is fitted with a clamp to fit the raised body section at the rear of the camera and a knurled knob makes fitting and removal quick and easy even with wet hands.

The camera angle is adjustable through 180 degrees and fixed using a large plastic knob.

The pole section shown measures 1.2m (4ft) to the top of the camera.

Alternative pole lengths can be supplied including a telescopic version that extends to 2.2m (7ft)

All parts are manufactured from corrosion resistant materials.
