## SEASPY CONTROL UNIT

### Model SSE

Weighing only 10.6 Kg and housed in a durable yellow Polypropylene case, this unit provides the ultimate in portable controllers for our Seaspy underwater video cameras and lights.

- 15 inch Sunlight Viewable Colour LCD Display
- Digital Video Recorder—SSD, CF & USB
- Record Still Photos during record or playback
- Video Text overlay using USB Keyboard
- Store unlimited pages of text for overlay
- Date and Time overlay
- Audio input for Microphone
- Built in audio playback speaker.
- Composite video output
- Controls for Camera focus & Power
- Variable brightness LED control
- Weatherproof when closed.

The 15 inch colour display mounted in the case lid behind a scratch resistant Polycarbonate window displays a clear and bright image from our Seaspy cameras even in bright sunlight.

Panel facias are durable, wipe clean Polycarbonate membranes with control buttons and indicators clearly marked and logically grouped for ease of operation.

The Digital Video Recorder developed saves up to 100 hours of best quality video and still photo files to the built in Solid State Drive with simultaneous export to USB memory. (up to 700 hours at lower quality)

Menu controls are provided for playback, export from SSD, delete, file name, file number, record quality, date / time format etc.

The DVR and Text menu system can be displayed in English, Spanish or French with other languages added as an option.

Variable intensity light control is provided for use with the Submertec UVL-3 LED light and provision has been made to limit current for use with other LED lights.
