

# HD INSPECTION SUPER SPYBALL CONTROL UNIT

## Model SS-CPI-2 for use with SSB-HDI Super Spyball

Portable Control Unit Model SS-CPI-2 has been developed to complement the HD Inspection Super Spyball and make full use of its unique features.

Weighing only 10Kg and housed in a durable yellow Polypropylene case, this unit which operates from 100 to 240 volts AC, provides control, display and HD recording from the Inspection Super Spyball.

The 17.3 inch TFT colour LCD display mounted in the case lid behind a scratch resistant Polycarbonate window displays a clear and bright image from the Spyball camera even in bright sunlight.

- 1080p HD Digital Video Recorder with HD Still Photos
- Simultaneous Record to internal 256GB & external USB
- Date and Time overlay
- Video Text overlay using USB Keyboard
- Microphone or Line input with built in playback speaker
- Joystick for proportional control of camera angle
- Dedicated Super Spyball control Display
- Automatic Panorama photos
- Option to display Super Spyball Depth and P&T angles
- GPS available as an option
- HDMI output from camera available as an option

DVR Menu controls are provided for playback, copy, delete, file name, date & time format etc.

Super Spyball controls include focus, variable intensity LED lighting and Laser Control. Access is also provided to special functions such as invert joystick direction, set movement limits, camera exposure, panorama angles and many more.

The HDIL Illuminated camera can be connected in place of a Super Spyball for inspection inside pipes and confined spaces.

Please note that Super Spyball equipment is not compatible with the original black Spyballs or their cables.
